Mad Science Day

Dear Parents/ Carers

As part of our Science week next week we have five Scientists coming in to school on Monday to deliver explosive and exciting workshops and demonstrations for the children. Each class will have an hour long Science Workshop and will be making things that they can bring home and keep. There will also be two Mad Science Assemblies. It will be an amazing and memorable day for the children.

This will be the kick start to the main Science week where the children will be undertaking Science Projects all week and preparing the work for an end of week judging.

The work from the winning group from each class will be displayed at a wonderful exhibition at Heron Hall Academy on Thursday 19th March after school. (More details to follow).

To help the school fund the Scientists and resources we are asking for a

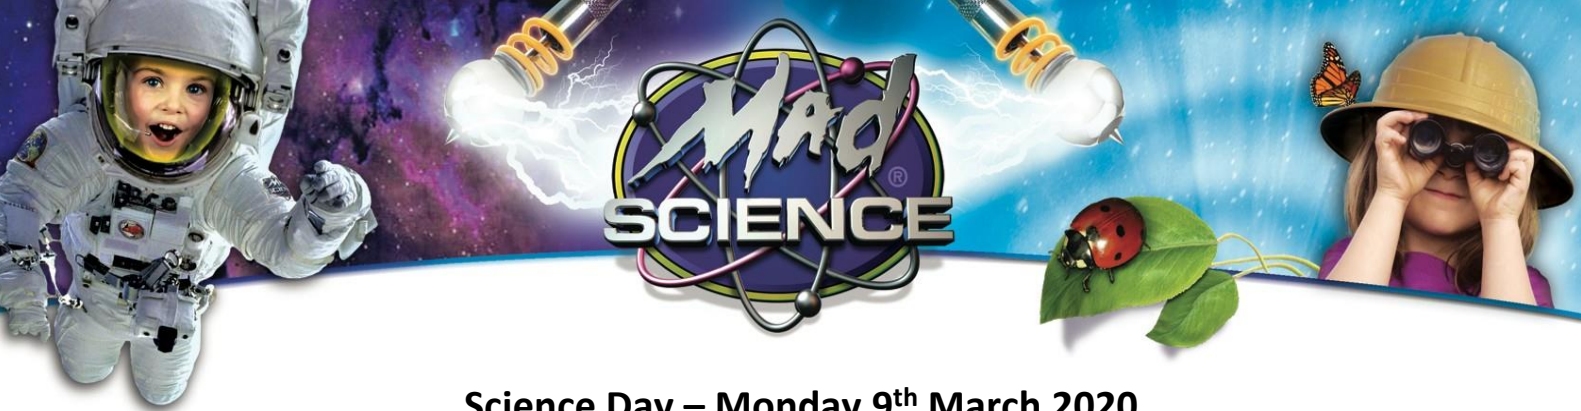

voluntary donation of £4 per child. You can pay this via parent pay.

Please see the science day timetable overleaf.

Thank you for your continued support and helping us make your child's education fulfilling

Kind regards

M. Clifford

Science Day – Monday 9th March 2020

Time	Activity / Year	Topic / Take home	Mad Scientist	Location Details
8.30 -9.00am	Mad Science Assembly 1 KS1	Up, Up & Away! (30-mins)	Lava Lamp Lisa	Hall
