

## Year 5 and 6 Home Learning

Dear Parent/ Carers,

Please see below the expectations for the home learning during the isolation period using DB Primary. If you have any problems accessing the work ***please ensure you let someone at school know.***

We are following best practice, using research into effective home learning and with that in mind we will be following the steps outlined below:

- Your child will be expected to log in to a Zoom registration every weekday morning at 9:00am or 9:15am (times and links to be sent shortly). During this time your child's teacher will check in with the class, explain the lessons for the day and answer any questions. ***It is important to keep a routine going and a morning registration with their class will be beneficial for the children and set them up for the day's learning.***
- Your child's lessons will be added to their calendar on DB Primary so you can easily see what tasks they have been set each day.
- Each lesson will be modelled. Your child's teacher will provide a video clip of themselves modelling what the children need to do. They will be teaching the methods required.
- Your child will be able to follow this video, pause it or replay it as much as they need when they are completing their work.
- Your child will be able to message the teachers and upload their work directly onto DB Primary.

Here are the links and times for the daily registrations
