

Kingfisher Hall Home Learning

Dear Parent/ Carers,

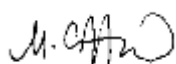

Please see below the expectations for the home learning during the isolation period using DB Primary. If you have any problems accessing the work ***please ensure you let someone at school know.***

We are following best practice, using research into effective home learning and with that in mind we will be following the steps outlined below:

- Your child will be expected to log in to a Zoom registration every weekday morning and afternoon at a pre-set time (times and links to be sent soon). During this time your child's teacher will check in with the class, explain the lessons for the day and answer any questions. ***It is important to keep a routine going and a morning registration and afternoon learning review with their class will be beneficial for the children and set them up for their learning.***
- Your child's lessons will be added to their calendar on DB Primary so you can easily see what tasks they have been set each day.
- Each lesson will be modelled. Your child's teacher will provide a video clip of themselves modelling what the children need to do. They will be teaching the methods required.
- Your child will be able to follow this video, pause it or replay it as much as they need when they are completing their work.
- Your child will be able to message the teachers and upload their work directly onto DB Primary.
- Your teacher will let the children know how to submit their completed work

Thank you all for your continued support. Take care and stay safe.

Mr M Clifford

Headteacher
